FOREWORD

New, Renamed, and Abolished State Governmental Entities is a biennial publication that provides information on the function and composition of statutory state agencies, interagency panels, advisory committees, and other state governmental entities that have been created, renamed, or eliminated by the Texas Legislature.

The **New Entities** section provides information on each of the 34 entities created by the 88th Legislature. Some of these new entities are associated with the creation, restructuring, or abolishment of another entity. In such instances, a reference to the corresponding entity is included.

The **Renamed Entities** section provides information on the three entities renamed by the 88th Legislature, including whether an entity's function or composition was unchanged or revised.

The **Abolished Entities** section provides information on each of the nine entities that were explicitly abolished or that were discontinued because the statute creating the entity was repealed by the 88th Legislature. If the function of the entity was transferred to an already existing entity, that is noted. If the function was assigned to a new entity described in the New Entities section, a reference to the corresponding entity is included.

For each entity included in the publication, the following information is provided:

- *Name*—The name of the entity as it appears in the enabling legislation or a descriptive phrase for the entity. If the entity advises or is administratively attached to a state agency, or if a state agency appoints members or provides staff support to the entity, that agency's name appears in parentheses. For an entity that has been renamed, the previous name is indicated. For an abolished entity, if its function is transferred, the entity that assumes that function is also named.
- *Legislation*—The bill and specific bill sections that contain provisions creating, renaming, or abolishing the entity and that may contain other information, such as the function and composition.
- *Effective/Abolished*—The date the provision creating, renaming, or abolishing the entity becomes effective. If creation of the entity is authorized instead of mandated, that is noted.
- *Function*—Powers and duties of the entity. For entities that have been renamed, a brief explanation of its revised function and the transfer of all or part of the function to another entity is included, if applicable.
- *Composition*—Membership information for the entity, including the number of members, appointment criteria, and terms of office. Information about the designation or selection of the presiding officer is included if that information is in the bill. If the composition of a renamed entity has been changed, a brief explanation of the change is provided.
- *Expiration*—When applicable, the sunset date or other expiration date included in the legislation creating a new entity or in the enabling statute for a renamed entity. Section 2110.008, Government Code, relating to the duration of advisory bodies, may be applicable to certain entities.

Indexes at the end of this publication provide links organized by subject area and administering agency.

The Texas Legislative Council has produced an edition of *New, Renamed, and Abolished State Governmental Entities* for each legislative session beginning with the 79th Legislature (2005). Between 1997 and 2003, similar information was provided in table form in the council publication *Summary of Enactments*.
