**SELECTED HOUSEHOLD AND
POPULATION CHARACTERISTICS
DEFINITIONS**

% POP USED IN ANALYSIS = percent of the district's population that lives in census block groups located entirely within the district or in block groups where a majority of the population lives in the district.

URBAN POPULATION = percent of the estimated population that lives in incorporated and unincorporated places of 2,500 or more persons. Those persons not classified as urban constitute the rural population.

NUMBER OF HOUSEHOLDS = the estimated number of households in the district. A household consists of all persons who occupy a housing unit and may be composed of a family, a person living alone, or two or more unrelated persons who share living arrangements.

AVERAGE PERSONS PER HOUSEHOLD = the average number of persons per household, determined by dividing the estimated total number of persons who live in households by the estimated number of households.

HOUSEHOLDS BY PERSONS PER HOUSEHOLD -- LIVE ALONE = percent of the estimated number of households that consist of an individual living alone.

HOUSEHOLDS BY PERSONS PER HOUSEHOLD -- 2 PERSON = percent of the estimated number of households that consist of two persons.

HOUSEHOLDS BY PERSONS PER HOUSEHOLD -- 3-4 PERSON = percent of the estimated number of households that consist of three and four persons.

HOUSEHOLDS BY PERSONS PER HOUSEHOLD -- 5 OR MORE = percent of the estimated number of households that consist of five or more persons.

PERSONS LIVING IN -- HOUSEHOLDS -- FAMILY = percent of the estimated number of persons who live in family households.

PERSONS LIVING IN -- HOUSEHOLDS -- NON-FAMILY = percent of the estimated number of persons who live alone or in households that consist of two or more persons who are not related by birth, marriage, or adoption.

PERSONS LIVING IN -- GROUP QUARTERS = percent of the estimated number of persons living in group quarters. Group quarters can be either institutionalized group quarters with inmates or patients who are under formally authorized, supervised care or custody or non-institutionalized group quarters consisting of college dormitories, military quarters, emergency shelters, and group and halfway houses.

This report is one of a series of summaries prepared by the Texas Legislative Council of data reported by the U.S. Bureau of the Census from the long-form questionnaire for the 2000 census. The questionnaire was sent to one in six households nationwide. Reports compiling census data by individual district are also available (contact Redistricting Support Services at 463-6622).
